COBALT

## COBALT 16

A youthful touch of luxury . . . The Cobalt 16 is the smallest in the Cobalt family, sized for comfort and convenience, with all the features and detailed elegance that is typical of the Cobalt tradition for quality and lasting value.

The scenic photography herein was done on location in the beautiful River Walk area of San Antonio, Texas and made possible through the courtesy and generous cooperation of its commission members.

# Cobalt 1975

## FOR THOSE WHO SEEK THE ULTIMATE IN BOATING PLEASURE

Luxurious near the point of perfection. Cobalt for 1975 is boating in the grandest manner. In its spirited styling. In its sheer spaciousness. In its total commitment to elegance and comfort. In its remarkable smoothness and handling characteristics. In its exquisite appointments. In its dozens of niceties that tell you Cobalt is the most regal of boats and deserving of the industry's praise.

For 1975, Cobalt proudly presents three distinctive models: the 16 and 18 deep V tri hulls and 19 deep V. All three reflect the dedication to supreme quality and all it means for lasting value and ownership pride. An extraordinary investment anyway you look at it, and of course a source of special delight are the many meaningful items that are uniquely standard on every model.

Cobalt for 1975 is boating excellence you can see, feel and use, to make boating a pleasure and delightful experience for the entire family.

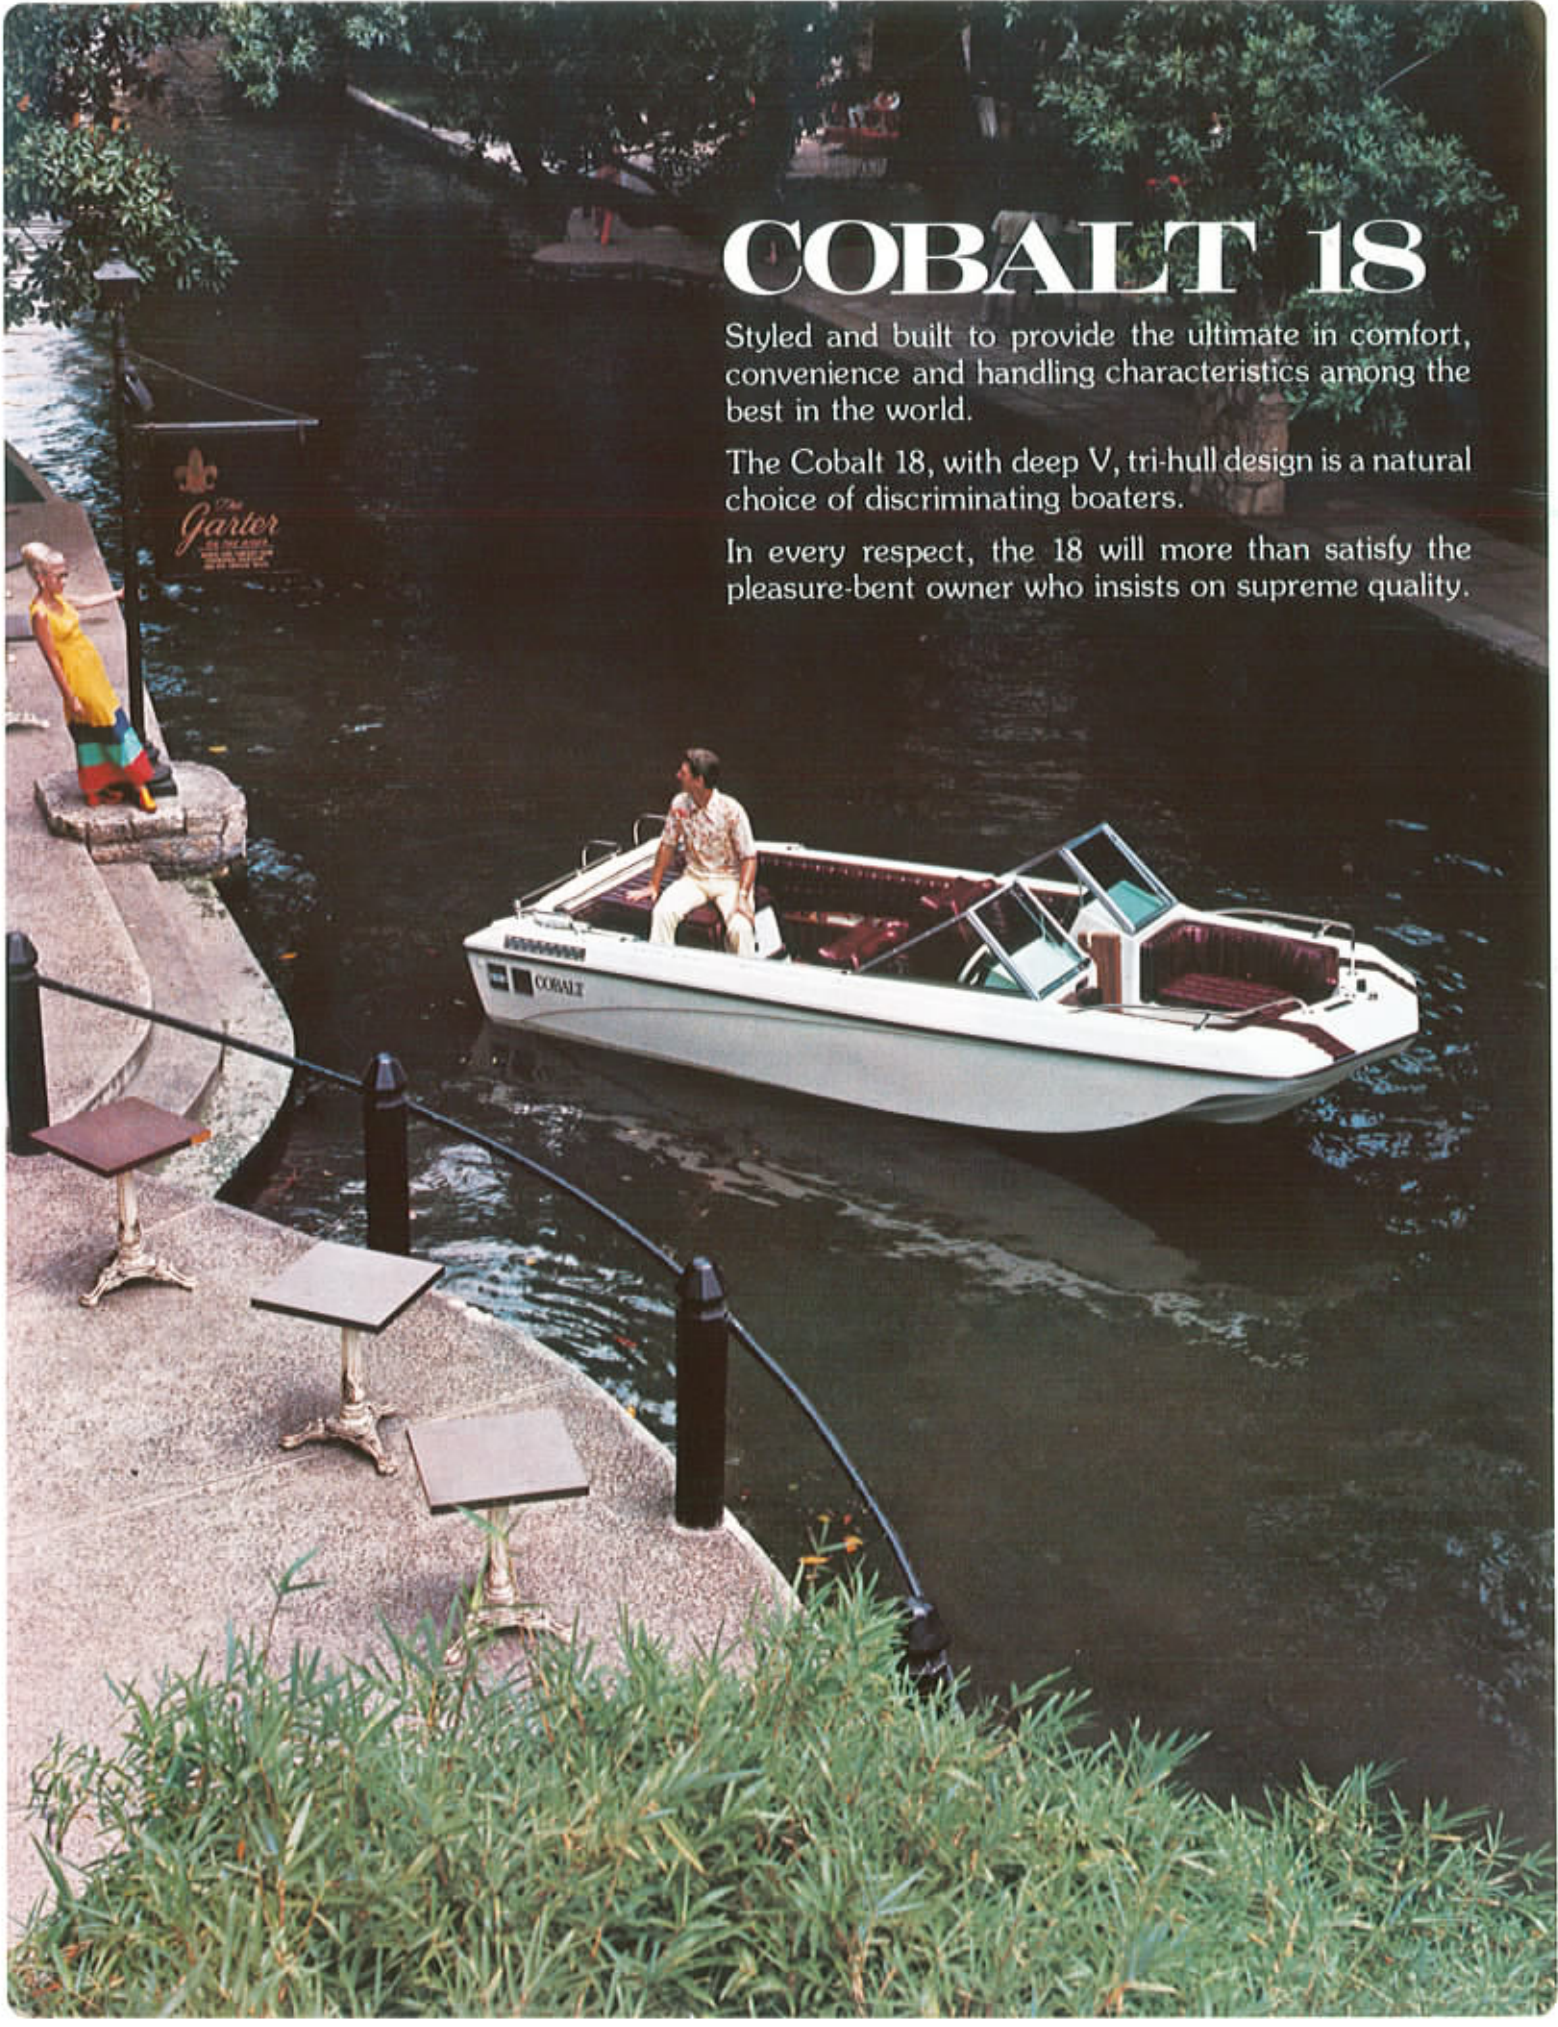

# COBALT 18

Styled and built to provide the ultimate in comfort, convenience and handling characteristics among the best in the world.

The Cobalt 18, with deep V, tri-hull design is a natural choice of discriminating boaters.

In every respect, the 18 will more than satisfy the pleasure-bent owner who insists on supreme quality.

OF SPECIAL DELIGHT ARE THE MANY FEATURES THAT ARE TRADITIONALLY STANDARD ON EVERY 16 and 18 COBALT.

(These features are standard on both 16' and 18' models.)

**CUSTOM INSTRUMENT PANEL** — Includes: tachometer, speedometer, amp meter, cigarette lighter, hour meter, oil pressure, temperature and electric fuel gauges — warning lights for all switches including bilge pump blower, lights and accessory switch. Each switch is fused individually and dash mounted for easy access.

**ADJUSTABLE LOUNGE SEATS** — Large, fully tufted bucket styling with exclusive designed mechanism (patent pending) that adjusts seats to four separate positions, fore & aft. Also easily converted to lounge and sleeper positions.

**TINTED SAFETY GLASS WINDSHIELD** — Heavy duty hinge on walk-thru door with positive latch in open & closed positions. Internal double welded joints on frame.

**TEAKWOOD WALK-THRU DOOR** — Heavy chrome plated brass hinges with positive catch latch.

**TOP CANVAS** — With stern, side curtains and tonneau cover. Durable nylon, vinyl fabric, prefitted at factory. (Camper Top is available as an optional item).

**NON-SLIP TEAK BOARDING STEPS** — Mounted directly to transom with wrap over stainless steel stern rails for easy, safe entry.

**INTERIOR COURTESY LIGHTS** — In passenger area and under dash. Illuminated dash compartment and indirect amber lighting under each gunnell.

**STERN LIGHT** — Mounted in transom above outdrive.

**INTERNATIONAL LIGHTING** — BIA approved and complies with U.S. Coast Guard standards.

**FIRE EXTINGUISHER** — Refillable and Coast Guard approved.

**DUAL HORN** — Mounted under dash. Electric and vented for maximum sound.

**LUXURIOUS INTERIOR** — A superb blend of Teakwood and tough, wear resistant, heavy vinyl. Choice of six distinctive colors.

**POLYPROPYLENE CARPETING** — Short shag, rubber backed, non-absorbing and mildew proof. Color coordinated to match upholstery.

**MATCHING RUB RAIL** — Color coordinated to match interior color.

**STAINLESS STEEL** — Rails and fittings, steering wheel, bow and stern eyes. All deck hardware bolted down with stainless steel nuts and bolts.

**ICE CHEST** — Extremely large capacity. Foam insulated and flush mounted in floor between lounge seats.

**DASH COMPARTMENT** — Utilizing entire dash space on passenger side. Door is lockable and folds down for use as a table.

**STORAGE** — Under bow, lounge, jump seats, in gunnell side compartments and map pockets on each side of bulkhead.

**HARDWARE** — Lifting ring, bow and stern eyes, ski eyes, cleats, deck vents, bow light, anchor light, stern light, step pads, rails, snaps and snap fasteners are stainless steel or chrome on brass.

**FIBERGLASS STRINGER SYSTEM** — Laminated to hull to form a single unitized structure.

**DOUBLE SIDE WALL** — For upright flotation, extra strength, and minimum water noise.

# COBALT 19

The 19 is the latest addition to the Cobalt family and especially appealing to the very particular boater who prefers the deep V hull design. Jim Wynne, world renowned deep V designer and champion ocean racer, designed the hull under special commission from Cobalt. Many new concepts have been incorporated into the 19. The hull with its variable planing surface for example, is so advanced and unique, it is protected by a patent.

Equipped with a myriad of features the 19 is truly a boat of our times, a perfect marriage between power and boat. An elegant craft, built for lasting satisfaction and magnificent performance. The 19 is all that present technology can offer in a boat. It is truly the ultimate in boating pleasure and grand enough to bear the Cobalt mark of excellence.

**THE COMPLETENESS OF THE COBALT 19 IS EXEMPLIFIED BY THESE OUTSTANDING STANDARD FEATURES.**

**CUSTOM INSTRUMENT PANEL** — Includes: tachometer, speedometer, amp meter, cigarette lighter, hour meter, oil pressure, temperature and electric fuel gauge — warning lights for all switches including bilge pump blower lights and accessory switch. Each switch is fused individually and dash mounted for easy access.

**ADJUSTABLE LOUNGE SEATS** — Large, fully tufted, bucket styling with exclusive designed mechanism (patent pending) that adjusts seats to four separate positions, fore & aft. Also easily converted to lounge and sleeper positions.

**TINTED SAFETY GLASS WINDSHIELD** — With double welded frame joints.

**TOP CANVAS** — With stern, side curtains and tonneau cover. Durable nylon, vinyl fabric, prefitted at factory. (Camper top is available as an optional item.)

**WALK-THRU WINDSHIELD** — A first in the industry. Center section slides down into its individual deck compartment. Electrically operated (patent pending) from switches on dash panel and from outside on deck.

**NON-SLIP TEAK BOARDING STEPS** — Mounted directly to transom with wrap over stainless steel stern rails for easy, safe entry.

**INTERIOR COURTESY LIGHTS** — In passenger area and under dash. Dash compartment and bow storage compartment also illuminated.

**STERN LIGHT** — Mounted in transom above outdrive.

**INTERNATIONAL LIGHTING** — BIA approved and complies with U.S. Coast Guard standards.

**FIRE EXTINGUISHER** — Refillable and Coast Guard approved.

## 2 YEAR WARRANTY

Cobalt Boats builds the finest quality boat obtainable. We warrant each new hull and deck to be free from structural defects in material and workmanship under normal recommended use for a period of two years from date of delivery to the original purchaser. During this period, warranty repairs will be made without charge by Cobalt Boats at their plant in Neodesha, Kansas, or at Cobalt's option, by an authorized Cobalt dealer. Transportation to and from the plant will be at the owner's expense with all repairs subject to the authorization of factory trained personnel whose decisions will be final.

The warranty does not apply to (1) engines, outdrives, controls, batteries, or other equipment or accessories carrying their own individual warranties (appropriate adjustment to them being provided by their respective manufacturers); (2) installation of engines or accessories installed by others; (3) windshield breakage, gel coat or upholstery damage and; (4) any Cobalt boat which has been altered, subject to misuse, negligence or accident, or used for racing purposes.

\*\*Applicable to 18 and 19 only

## POSITIVE UPRIGHT AND LEVEL FLOTATION

Within the hull and between the double wall construction of every Cobalt hull is a massive amount of high density foam. The foaming process gives additional strength plus flotation capabilities that keep a Cobalt upright even when completely filled with water. The foaming process also eliminated most water noise and provides a quieter ride.

EVERY COBALT IS BIA APPROVED AND COMPLIES TO COAST GUARD STANDARDS.

Because Cobalt's Policy of Design for Excellence dictates the inclusion of advancements whenever developed, the right is reserved to make changes in these specifications at any time without advance notice.
