Cobalt Boats

1 9 9 4

A photograph of a sunset over a body of water. The sky is filled with orange and yellow clouds, and the sun is low on the horizon. In the foreground, a dark boat is on the water, with two people visible on board. The water reflects the colors of the sunset.

Cobalt's home, Neodesha, Kansas, is a small town steeped in traditional values and a pioneering heritage. Those same traditions and a dedicated work force are two key elements which allow Cobalt boats to enjoy an enviable reputation for quality, customer loyalty and pride. The final element in this equation has been Cobalt's longstanding, steadfast commitment - To build the very best boat of its size in the world.

Cobalt's lofty standards are founded on the inherently simple premise of quality and not on the number of boats that can be produced in a single day. Each Cobalt manufacturing step is a handcrafted operation accomplished by caring people using the best materials available. That's why it takes almost two weeks to build each Cobalt boat. And that's why Cobalt stands behind every boat with a five-year transferable limited warranty covering the hull, deck, engine and outdrive.

The Cobalt commitment continues through select dealerships where customers are afforded attentive service. Cobalt dealers are supported by the company's dedicated Customer Service Division.

For more than two decades Cobalt owners have discovered a distinctive pride of ownership based on this Kansas company's pursuit of excellence and a commitment to quality and performance.

And The Tradition Of Excellence Continues . . .

Cobalt: The Details Make The Difference

Armorcote III Gelcoat

It costs nearly twice as much as conventional gelcoats. So what? Cobalt owners deserve the superior weather resistance, durable high-gloss finish, and abrasion protection that only Armorcote III can deliver. Armorcote III is a Cobalt exclusive.

Xycon Barrier Coat

The Xycon process lies at the heart of the matchless Cobalt finish. Only Cobalt insists on this extra layer of protection between the structural fiberglass and the high-gloss Armorcote III gelcoat.

Premium Sony Stereo

Cobalt chooses not to compromise. Ever. Particularly not in the quality of the stereo system where other manufacturers are content to offer second-rate sound. Sony is standard on Cobalt boats, with four balanced speakers and a detachable, theft-proof face.

Roto-Cast Bucket Seats

Every Cobalt bucket seat and most interior appointments are made of rot-resistant plastic or fiberglass which, unlike wood, holds its shape indefinitely and simply will not absorb water.

39-Ounce Prefixx Vinyl

The Cobalt warranty extends to the boat's vinyl, an unprecedented sort of guarantee that's made possible by its thickness - nearly double the industry standard - and by the stain-resistance of Prefixx protection.

Aluminum Backing Plates

Embedded in the fiberglass, aluminum backing plates afford double fastening for the windshield and all deck hardware.

Hydrolam Construction

Hydrolam, only from Cobalt, brings together woven roving, mat, and a Xycon barrier coat, forming unsurpassed strength and structural integrity.

Custom Wiring Harness

Universal wiring looms, end splices, and in-line fuses don't seem to bother other manufacturers. Cobalt builds custom harnesses, wiring all equipment to circuit breakers.

Stainless Steel Protection

Cobalt puts the polished strength of stainless steel out front in a first line of defense against scuffing and denting. Cobalt comes down hard with stainless steel protection for rubrails and a bow scuff plate that's so vital to damage-free trailering.

Aluminum Engine Vents

Cobalt engine vents are powder-coated aluminum. The plastic used by other manufacturers has never fit with the Cobalt scheme of long-term service and value.

Cobalt 200

“ Every boater's goal in life should be to own a Cobalt. ”

Powerboat Magazine

Cobalt 220

“ Is this kind of detailing absolutely necessary? Of course not. But it makes the difference between a nice little runabout and a class act. ”

Boating Magazine

Cobalt 222

“ Cobalt was, is and probably always will be the industry's premier family bowrider company. ”

Powerboat Magazine

Cobalt 223

“ Ask around the docks, as I did, about the best boats built in America today, and without a doubt you will hear the name Cobalt on every knowledgeable boater's list. ”

Boating Magazine

Cobalt Tradition

“ Impeccable styling has long been a Cobalt trademark, which helps explain why this company has won 12 Awards For Product Excellence since 1982. ”

Powerboat Magazine

Cobalt 252

“ When it comes to boats, value is relative. For many, just the chance to get out on the water for a minimum investment is enough, and there are plenty of boats to fill their needs. On the other hand, there are those who will settle for nothing but the best. For these buyers there is Cobalt. ”

MotorBoat Magazine

Cobalt 272

“Mention the name Cobalt and the bywords that instantly come to mind are unmatched luxury, phenomenal workmanship, and innovative styling.”

Powerboat Magazine

Specifications

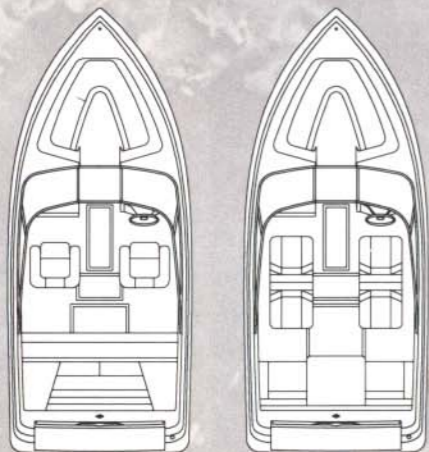

1994 COBALT BOATS

All of the drawings and specifications shown here illustrate the Cobalt models available for 1994.

Where two interiors are shown, the sleeper seat configuration is standard.

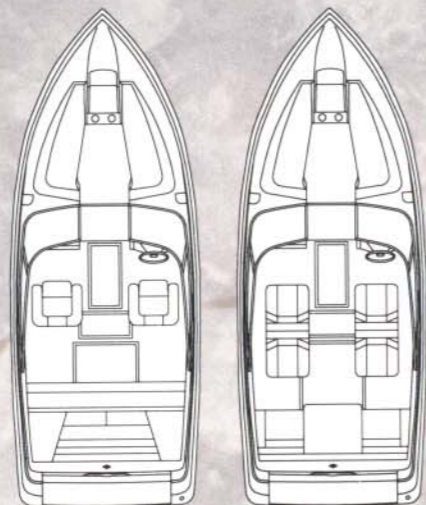

Cobalt reserves the right to make changes on any specifications. Specifications and options are subject to change without notice.

Standard Features & Options

Cobalt 200

Standard Equipment:

- 5 yr. Limited Hull Warranty
- 5 yr. Limited Powertrain Warranty
- Sleeper Seat Interior
- Sony Stereo System
- Hour Meter
- Walk-Thru Doors
- Bow Scuff Plate
- Convertible Top
- Accessory Power Plug
- Ignition Safety Switch

Optional Equipment:

- Sleeper Seat Interior w/Stbd. Sport Bucket
- Sundeck Interior w/Sport Buckets
- Bow Cushion Insert
- Bow Tonneau Cover
- Cockpit Tonneau Cover
- Bimini Top
- Mooring Cover
- Side Curtains
- Stern Curtain
- Leather Steering Wheel
- Bow Carpet
- Compass
- Docking Lights
- Dual Battery Switch
- Depth Sounder
- Halon Extinguisher
- Fresh Water Washdown
- Windshield Wiper
- Tool Kit
- Stainless Prop Exchange

Cobalt 220

Standard Equipment:

- 5 yr. Limited Hull Warranty
- 5 yr. Limited Powertrain Warranty
- Sleeper Seat Interior
- Sony Stereo System
- Hour Meter
- Walk-Thru Doors
- Bow Scuff Plate
- Convertible Top
- Accessory Power Plug
- Ignition Safety Switch
- Fender Storage

Optional Equipment:

- Sleeper Seat Interior w/Stbd. Sport Bucket

Cobalt upholstery is built to exacting VaraDense™ standards. The finest vinyls and other materials are used throughout. All exterior vinyls are treated with PreFixx™ giving the greatest protection and endurance available.

Any of the interior color choices are also available with all-white deck and hull. This would include boat striping to match interior trim and seat piping. Please check with your Cobalt Dealer for further information.

Cobalt reserves the right to make changes in colors, combinations and materials without prior notification or obligation. Color graphics on boats appearing on previous pages vary from actual colors due to fluctuation in natural lighting conditions and reflected surrounding color. Samples on this page will also vary slightly due to limitations of printing processes and lighting under which they are seen.

Cobalt Sportswear

A. Acrylic glasses and mugs. Lifetime guarantee. Set of 4 glasses \$35.00 or \$9.00 each. Set of 4 mugs \$38.00 or \$9.50 each.
